

Mrs Shafia Haroon

I first joined the Governing Body at Cranford Primary School as a Parent Governor when my eldest child was in Year 2. At the time I wanted to see all three of my children succeed and thrive. My children have long since left Cranford Primary but I remain here, now as a co-opted Governor, as I want to see the children in my community succeed and thrive.

I have strong interpersonal and business skills which I believe are an asset when working with parents, staff and the Governing Body. I regularly visit the school and have a good insight into the way the school helps to develop and progress the children.

As a member of the Governing Board I help to decide the priorities for improving the school by analysing data, taking on board parents and teachers ideas and by supporting the Headteacher.
